### **GeoData Technologies Signs Contract with Prudential Steamboat Realty**

#### *Prudential Steamboat Realty Selects SiteSeer3D™ for 3D Property Search and Analysis*

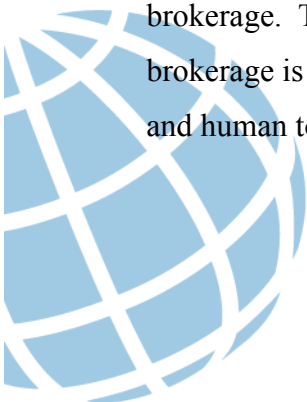

**SANDPOINT, ID – September 18, 2008** - GeoData Technologies, the leading provider of 3D collaborative software for the real estate industry, announced today that Prudential Steamboat Realty has chosen SiteSeer3D to make its agents more effective and provide better service to their clients.

“We have selected SiteSeer3D for our agents because we are committed to providing state-of-the-art technology that improves their productivity and enhances our service to our clients,” said Laura Cusenbary, Director of Marketing, Prudential Steamboat Realty.

“SiteSeer3D will create new opportunities for interacting with our clients in our office as well as remotely. We expect to attract more listings by customizing our virtual landscape to include new property developments. The fact that SiteSeer3D supports our green marketing initiatives is also a bonus.”

“Prudential Steamboat Realty is very forward-thinking in their approach to marketing. They recognize that SiteSeer3D will improve their ability to market properties as well as market the brokerage. They have adopted leading-edge technology to demonstrate to clients that the brokerage is high tech and they appreciate the fact that SiteSeer3D promotes customer service and human touch,” stated Mark Williams, President of GeoData Technologies.

-end-

### **About SiteSeer3D™**

SiteSeer3D allows real estate agents and their clients to tour real estate properties virtually. SiteSeer3D provides a true sense of property and the surrounding neighborhood by displaying specific information about a location and its surroundings including parcel size, schools and parks, nearby amenities, topography, traffic analysis and more. SiteSeer3D is an easy-to-use high tech solution that uniquely promotes collaboration and raises the personal interaction between agent and buyer. By providing a comprehensive and integrated source for information and robust visualization of potential properties, SiteSeer3D increases productivity and reduces car expenses and unnecessary travel time.

### **About GeoData Technologies**

GeoData Technologies is the leading provider of 3D collaborative software used by real estate professionals. GeoData Technologies provides the tools, data layers, services and training to increase productivity, generate more leads and reduce costs. GeoData Technologies is headquartered in Sandpoint, ID and also has offices in Boise, ID and Spokane, WA.
